

The stay at home story

Ring ring ring
My alarm sings.
Finally I get up
A little late,
It's after 8 !

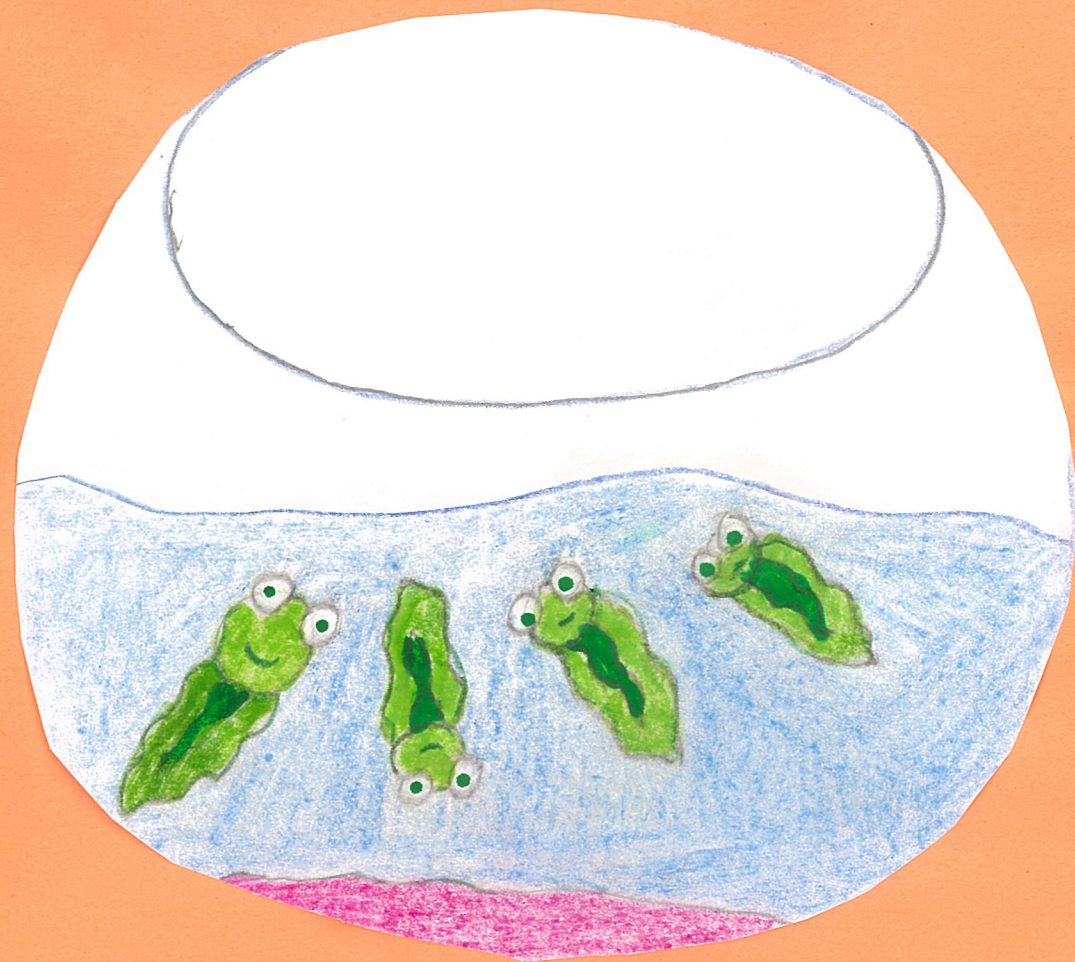

I think about what to wear
And how I should do my hair.
Then I remember what mom said
"We have to stay home instead"

The next day
I heard mom say
Uncle Bob was stopping by
And he might have a surprise
Yay !

He brought with him a small bowl
And inside were a bunch of tadpoles.
They looked little fish
Swimming all together all squished

I've never had tadpoles before
So we went to the store.
I need a new tank, food and more.
A lot of stuff to get !
So mom ordered over the internet
And i went along for the ride
To pick up curbside.

After the tank was decorated and all set
I moved them in using a soft net
And then asked Alexa about my new pets.

She said they come from eggs,
would soon grow arms and legs
And make a home under rocks and logs
And finally turn into little frogs.

So I fed them everyday
And watched them grow and play.
Their heads became so big and wide
They looked funny swimming side to side.

They went from water to ground
And started making sounds
Breathing in air
And hopping from here to there.

Amazingly! It was true.
It took about a month or two
But they all grew and grew
Into something totally new

Kinda like how we had to change
Even though it felt strange.
To stop spreading the germs and bugs
We couldn't go to school, play, even give hugs
Instead we had to find new things to do
Like meet online for school
And follow the 'wear a mask rule'
Until we all grew
Into something new.
